About the Emerging Growth Conference

The Emerging Growth Virtual Conference is focused on growth companies with strong management teams, innovative products and services, focused strategy, execution and the overall potential for long-term growth. The conference's audience includes potentially tens of thousands of individual and institutional investors, as well as investment advisors and analysts. More information about the Emerging Growth Conference is available [here](#).

About SeaStar Medical

SeaStar Medical is a medical technology company focusing on redefining how extracorporeal therapies may reduce the consequences of excessive inflammation on vital organs. SeaStar Medical's novel technologies rely on science and innovation to provide life-saving solutions to critically ill patients. The Company is developing and commercializing extracorporeal therapies that target the effector cells that drive systemic inflammation, causing direct tissue damage and secreting a range of pro-inflammatory cytokines that initiate and propagate imbalanced immune responses. For more information visit www.seastarmedical.com or visit us on [LinkedIn](#) or [Twitter](#).
